

# Raw Text-Based Data for Assessment as Learning

---

Here are the tables for each student, including their self-assessment ratings and comments based on their profiles and journal entries.

## Yasmin G.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	4	I can easily identify the parts and help others.
2. Identify the different parts of a hemisphere	4	I feel confident with hemispheres too.
3. Select the correct formula or formulas for the given shape.	4	I understand the formulas well.
4. Calculate the volume with the given information.	4	I can calculate volumes accurately.
5. Verify that the calculated volume is correct	4	I always double-check my work for accuracy.

---

## Leila C.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	3	I can identify most parts, but I need more practice.
2. Identify the different parts of a hemisphere	3	I'm getting better but still need help sometimes.
3. Select the correct formula or formulas for the given shape.	3	I can select formulas, but I'm not always sure.
4. Calculate the volume with the given information.	3	I can calculate volumes, but I need to be more accurate.
5. Verify that the calculated volume is correct	2	I struggle with checking my calculations.

---

## Juan S.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	4	I can identify all parts confidently.
2. Identify the different parts of a hemisphere	4	I feel good about hemispheres too.
3. Select the correct formula or formulas for the given shape.	4	I understand which formulas to use.
4. Calculate the volume with the given information.	4	I can calculate volumes without much trouble.
5. Verify that the calculated volume is correct	3	I check my work, but I can improve on this.

---

## Jody R.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	4	I can identify the parts accurately.
2. Identify the different parts of a hemisphere	3	I'm getting better but need to practice more.
3. Select the correct formula or formulas for the given shape.	3	I can select formulas, but I need to be more confident.
4. Calculate the volume with the given information.	3	I can calculate volumes, but I need to check my work more.
5. Verify that the calculated volume is correct	2	I struggle with verifying my calculations.

---

## Elina R.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	3	I can identify some parts, but I need more practice.
2. Identify the different parts of a hemisphere	2	I find this challenging and need help.

Skill	Rating	Comments
3. Select the correct formula or formulas for the given shape.	3	I can select some formulas, but I'm not always sure.
4. Calculate the volume with the given information.	3	I can calculate volumes, but I need to focus more.
5. Verify that the calculated volume is correct	2	I struggle with checking my calculations.

## Leroy L.

Skill	Rating	Comments	
1. Identify the different parts of a cylinder	3	I can identify most parts, but I need to be more careful.	
2. Identify the different parts of a hemisphere	3	I'm improving but still need practice.	
3. Select the correct formula or formulas for the given shape.	3	I can select formulas, but I need to be more confident.	
4. Calculate the volume with the given information.	3	I can calculate volumes, but I need to focus more.	
5. Verify that the calculated volume is correct	2	I struggle with checking my calculations.	

## Matthew G.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	4	I can identify all parts and help others.
2. Identify the different parts of a hemisphere	4	I feel confident with hemispheres as well.
3. Select the correct formula or formulas for the given shape.	4	I understand which formulas to use.
4. Calculate the volume with the given information.	4	I can calculate volumes accurately.
5. Verify that the calculated volume is correct	3	I check my work, but I could improve on this.

## Juan R.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	4	I can identify all parts confidently.
2. Identify the different parts of a hemisphere	4	I feel good about hemispheres too.
3. Select the correct formula or formulas for the given shape.	4	I understand which formulas to use.
4. Calculate the volume with the given information.	4	I can calculate volumes without much trouble.
5. Verify that the calculated volume is correct	3	I check my work, but I can improve on this.

---

## Luke Ryan C.

Skill	Rating	Comments
1. Identify the different parts of a cylinder	4	I can identify all parts accurately.
2. Identify the different parts of a hemisphere	4	I feel confident with hemispheres as well.
3. Select the correct formula or formulas for the given shape.	3	I can select formulas, but I need to be more confident.
4. Calculate the volume with the given information.	3	I can calculate volumes, but I need to check my work more.
5. Verify that the calculated volume is correct	3	I check my calculations, but I can improve.

---

## Adrian Vallejo

Skill	Rating	Comments
1. Identify the different parts of a cylinder	2	I find this challenging and need help.
2. Identify the different parts of a hemisphere	2	I struggle with this and need more practice.
3. Select the correct formula or formulas for the given shape.	3	I can select some formulas, but I'm not always sure.

Skill	Rating	Comments
4. Calculate the volume with the given information.	3	I can calculate volumes, but I need to focus more.
5. Verify that the calculated volume is correct	2	I struggle with checking my calculations.
